Getting started with iOS devices (iPhone/iPad/iPod touch)

You can use the OverDrive app to get eBooks, audiobooks, streaming videos, and periodicals from your library on your iOS device (iPhone/iPad/iPod touch).

Note: Some digital formats may not be available from all libraries.

Step 1

Download the OverDrive app from the Apple App Store.

Step 2

Open the OverDrive app and follow the prompts to create an OverDrive account and log in. If you're under 13, select **I am under 13 years old** instead.

Step 3

In the OverDrive app, swipe from left to right to open the **Home menu**. Then, tap **Add a library** to find your library's OverDrive website.

- Tap the star to save your library to your library list.
- Tap your library's name to start browsing.

Step 4

Log into your library's OverDrive website with your library card and borrow a title.

*Note: Magazines and newspapers work a little differently than other digital titles. They have a **Send to NOOK app** button instead of a **Borrow** button, and to read them, you'll need to install the NOOK reading app from the Apple App Store. See getting started with periodicals for more help.*

Step 5

Find borrowed titles under your account on your library's OverDrive website. You can:

- Download EPUB eBooks* and MP3 audiobooks directly to the OverDrive app.
- Add streaming videos to the OverDrive app.
- Tap **Read** to open and read OverDrive Read or MediaDo Reader eBooks right in your browser.
- If you've installed the Kindle reading app from the Apple App Store, select **Kindle Book** (U.S. only) to complete checkout on Amazon's website and send the book to your Kindle

reading app.
