In September the Mac User group will have a demonstration of the iHome app. This is the one where you can control your home's heat, lights, locks, temperature, and other things through your Apple device. In addition, we will have time for questions and answers regarding Apple devices. The Middlebury Mac User Group (MiddMUG) shares information regarding Apple products, including Macintosh computers, iPhones, iPads, and the Apple watch. All are welcome, no matter your level of expertise. We teach each other and help solve each other's problems, swap or share gear and books. We share the work of organizing and running meetings.
