In this talk, Middlebury College Assistant Professor of Physics Eilat Glikman will present the many ways astronomers infer the presence of supermassive black holes residing at the centers of galaxies, and how they might influence their host galaxies and cosmic environments. Glikman will also explain how they might influence what we think they grow to such extreme masses, and why they are so common. In his talk titled Inconstant Moon: Discovery and Controversy on the Way to the Moon, Professor Eilat Glikman will present the many ways we can observe supermassive black holes in their host galaxies and what it tells us about the nature of black holes in the universe.

The Legacy of Apollo 11
Monday, July 15 at 1 pm
Louis Varricchio
Middlebury resident and former Nasa senior science writer Louis Varricchio offers a 50-year look back at the historic and scientific legacy of the United States’ first mission to land astronauts on the Moon in July 1969. Varricchio is an adjunct science instructor at Community College of Vermont as well as the managing editor of the Vermont Eagle weekly newspaper. He is the author of the science-history book, titled Inconstant Moon: Discovery and Controversy on the Way to the Moon.

Summer Reading Program Movies
Join us for a free movie screening and space snacks!

- Apollo 13: Wednesday, July 17 at 1 p.m.
- E.T.: Tuesday, July 23 at 6 p.m.

Stargazing Night in Middlebury
Friday, July 12, 9-10:30 pm
Location: Mary Hogan recreation park field
Please join us for a night of stargazing at the ball field next to the Mary Hogan School. Members of the Vermont Astronomical Society be on hand to answer your questions and to demonstrate how to use a telescope, to see stars, and other celestial objects such as Jupiter and the moon (Friday, Jul 19 rain date. Check website for cancellations).

Screening of Au Revoir Les Enfants
Wednesday, July 17 at 6 p.m.
This classic French film that is based on the memories of director Louis Malle and explores what could have been a friendship between a French boy and a German Jewish boy. This screening commemorates the Vel’ d’Hiv Roundup of July 16-17, 1942, when the French Police, under the direction of the Nazis, arrested between 7,000 and 14,000 Parisian Jews. Following the screening, Middlebury College Professor emeritus Simon Barenbaum will share memories of July 16, 1942.

Moth night in Middlebury
Saturday, July 13 at 8 pm
Community Meeting Room
Vermont moth expert JoAnne Russo will share information about the diversity of moths in Vermont and how you can observe them. Jennifer Murdoch will be on hand with live caterpillar and moths. After the presentation, we will move to a nearby Middlebury location for a live moth viewing. Sponsored by the Otter Creek Audubon Society.

Summer Reading Program Photo Exhibit
Astronomical photographs from NASA and from the Mittelman Observatory at Middlebury College will be on display.
